

Sameh Dhamer

FULL STACK JAVASCRIPT DEVELOPER

Hello, I am a Full Stack Javascript Developer. I am an organizational person. I have leadership skills. After graduation, I worked as an instructor at RBK. Before that, I had a lot of experience in call centers. These experiences helped me develop my communication skills. While studying at RBK, I participated in many projects that taught me Agile methodologies, task boards, and deadline setting. Currently, I'm willing to join a company where I can be creative while working.
